

Shipping Information

Shipping wine is very important to us – too much has been invested in each bottle to have it ruined by careless handling. We do all the packing and shipping directly at the winery. Fred evaluates the weather forecast for the destination and travel route for each shipment (really). If the weather is too extreme at the destination – or along the transit route – we will contact you about options of upgrading to overnight or storing your wine at the winery until a better time of year.

We can ship as many or as few bottles as you would like. Prices below are given as guidelines for case (12), case plus (12-15) and half case orders (6). Shippers are available for 2, 4, 6, 12 and 15 packs for 750 mL bottles. Magnum shippers are in 2, 3 and 6 packs. Half bottles are in 6 and 12 packs. Full bottle and half bottle orders can be combined in the same shipper. Please allow us to calculate the actual shipping for you on any order above or below these guides:
